

As a resident of the local Newport News community, I am writing because I listen to K-LOVE radio, which is heard on 90.7 FM. This station has a positive and encouraging impact on me personally, and I believe my community as well. This area's population is expanding at a rapid pace, and traffic continues to grow worse, but being able to listen to the wholesome broadcast by K-Love helps me keep a peaceful and friendly attitude while driving, and also provides uplifting songs and messages to encourage me throughout the day. Our populace also has a large rotation of military personnel who find it comforting to be able to listen to their favorite station that they have heard in other communities all across America.

As I understand the proposed changes, there is a chance that an LPFM broadcaster providing other programming could displace K-LOVE. I believe if that were to happen, this community would be losing a valuable resource currently provided to us. The family-friendly programming provided by K-LOVE is a service that should not be changed, as it is in the public interest for it to continue to be on the air just as it is now. This station is fully funded by its listeners, which should show you just how much we value our favorite station. Please do not do anything that could force K-LOVE off the air.

Sincerely, Debra Jones
